Temporary COVID bus timetables from 16 January

From Saturday 16 January, we will be making some temporary changes to our services in light of the government's latest COVID restrictions. Most services continue to operate but with some reduced frequencies as shown below.

These changes will ensure that we're meeting travel demands and still allowing for social distancing to take place.

If your service isn't listed below, then it will continue to run to its normal timetable.

Live times are available on both our [website](#) and [app](#) – and you can check in advance how busy your journey is going to be using our [When2Travel](#) planning tool.

You can view all the timetables in our [timetables and maps](#) section – simply select your service and change the calendar to your desired date.

Timetable booklets will also be available on all buses from this weekend.

X-lines X1

- A small number of daytime journeys will be temporarily suspended, but the service will still run up to every 12 minutes.
- There may, however, be gaps of up to 24 minutes between some journeys so please check the timetable using the link below.
- There will also be some evening frequency reductions.
- [View timetable](#)

Black Cats 2 & 2A

- There will be some reductions to the frequency between Sunderland and Silksworth.
- [View timetable](#)

QuayCity Q3

- There will be some reductions to the evening timetable.
- On a Saturday, the service will run to the current Sunday timetable.
- On a Sunday, the service will be revised to run hourly.
- [View timetable](#)

Venture V3 & V4

- Sunday service added to allow customers in Bridgehill to travel following the temporary withdrawal of X-lines X46.
- [View V3 timetable](#)
- [View V4 timetable](#)

Connections 4

- A small number of daytime journeys will be temporarily suspended, but the service will still run up to every 12 minutes.
- There may, however, be gaps of up to 24 minutes between some journeys so please check the timetable using the link below.
- There will also be some reductions to the evening frequency.
